8:15 - 8:55 **Mini-lecture**

Japanese culture in Anime - Viewpoint of Ghibli anime

What can you tell about Japanese culture and society after watching anime? School life? Food? Festivals? Religion? This mini-lecture presents how one of the Japanese religions, Shinto, is incorporated in the lives of Ghibli characters as well as in other anime characters. Even though a concept of religious practice might be different from other countries, philosophy of Shinto is deeply embedded in Japanese culture and societal values as well as people's daily lives, including food layout. After this lecture, you will be able to explain how Shinto influences the culture and people's thoughts in Japan.

Guest Lecturer

Dr. Tomoko Hoogenboom

Japanese Area Coordinator at University of Maryland Baltimore County (UMBC),
Kanagawa Sister State Committee Chairperson at Sister States Maryland

8:55- 9:00 **Q&A session**
