

I am currently a senior at Yale University pursuing a double major in history and East Asian Studies. I studied abroad at Nanzan for 9 months from fall 2022 to spring 2023. Thanks to my Japanese language instructors and my host family, I was able to improve my Japanese a lot. I also really enjoyed making friends with students at Nanzan and exploring Japan with them. I came back to Japan a year after I finished my study abroad program for a summer internship at The Center for the Tokyo Raids and War Damage in Tokyo. Looking ahead, I am hoping to work towards a career that helps facilitate cultural and language exchanges between the United States, Japan, and China.
